EXPERIENCE

SOFTWARE ENGINEER

64squares apex LLP

December 2023 - Present | Pune

- Developed responsive and user-friendly **frontend** applications using **React.js**.
- Implemented backend functionality with Django, incorporating **JWT authentication** for enhanced security.
- Contributed to a **geotech project**, actively managing both frontend and backend aspects.
- Utilized **Snowflake** for efficient and scalable database management.
- Collaborated with a dynamic team at 64 Squares Appex LLP to deliver high-quality software solutions.

PROJECTS

MOVIES DETAILS AND REVIEWS WEBSITE (IMDB-LIKE)

| **WEB** | **Link**

- Developed a Movie Reviews website using **React.js** for the frontend.
- Leveraged the **TMDB API** to fetch comprehensive movie details, including ratings, actors, and more.
- Implemented an intuitive user interface with features such as **infinite scrolling** for seamless browsing.
- Incorporated **sorting** options for users to organize movie listings effectively.
- Enabled a powerful **search functionality** to help users find movies based on their preferences.
- Demonstrated proficiency in **responsive design** and user-friendly navigation.

CERTIFICATIONS

RESPONSIVE WEB DESIGN | FREECODECAMP

Sept 2023

Demonstrated proficiency in responsive web design principles, including HTML, CSS, Flexbox, and CSS Grid, through a series of hands-on projects and challenges.

REACT JS | GREAT LEARNING

Aug 2023

Attained proficiency in React.js, a popular JavaScript library for building user interfaces, including state management, component development, and single-page application design.
